PROFILE SUMMARY

I'm an aspiring full-stack developer with a strong passion for teamwork and achieving success. I bring dedication, attention to detail, and excellent organizational skills. My background in software development and continuous learning equips me to contribute effectively to projects. Eager to grow and excel, I strive to make a positive impact by constantly learning and adapting to be better than yesterday, ensuring I can make a meaningful contribution to any organization I join.

WORK EXPERIENCE

Freelance

03, 2023 - PRESENT

Web Developer

- Developed a fully functional, responsive banking website using Bootstrap for styling.
- Optimized website performance to ensure fast loading times.
- Implemented proper database management to enable accessibility for non-coders.
- Integrated APIs for live functionality and real-time data updates.
- Ensured robust error handling throughout the application to maintain reliability and user satisfaction.
- Incorporated SEO best practices to enhance search engine visibility and user acquisition.
